PROFESSIONAL SUMMARY

Interior Design graduate of Birzeit University (2026), with experience across concept development, space planning, technical drawings, 3D modeling, material selection, lighting, and rendering. Portfolio includes residential interiors, kitchen design, construction documentation, exterior architectural visualization, and a community recycling center. Completed an internship developing residential villa interiors and 3D visualizations. Proficient in AutoCAD, Revit, 3ds Max, V-Ray, D5 Render, and Photoshop.

TECHNICAL SKILLS

Core Skills: Interior Design, Space Planning, Material Selection, Lighting Design, Technical Drawings, 3D Modeling, 3D Visualization, Architectural Rendering

3D & Visualization: 3ds Max, V-Ray, Corona Renderer, D5 Render

Design & Documentation: AutoCAD, Revit

Adobe Creative Tools: Photoshop, Illustrator

EDUCATION

Bachelor's Degree in Interior Design

Birzeit University

GPA: 77.4%

2026

High School

Al-Bireh Al-Jadida School

GPA: 93.4%

2022

INTERNSHIP

Interior Design Intern – Pal Roots Engineering Office

Residential Villa Interior Design Project

2 months

- Developed the interior design of one floor of a residential villa, including a master bedroom with en-suite bathroom, a girl's bedroom, a boy's bedroom, and a guest bathroom.
- Produced 3D visualizations of the interior spaces using 3ds Max.

SELECTED PROJECTS

Community Recycling Center

2026

Designed a multifunctional recycling center integrating waste processing, educational workshops, exhibitions, and retail spaces to promote sustainability and community engagement. [View Project](#)

Skills: Concept Development, Space Planning, Sustainable Design, Material Selection, Architectural Visualization, Presentation Design

Interior Visualization – Residential Interiors

2026

Modeled and rendered seven residential interiors: a living room, master bedroom, girl's bedroom, boy's bedroom, guest bathroom, master bathroom, and kitchenette. Developed each space from furniture layout and material selection through lighting setup and final rendering, presenting overall and detail views. [View Project](#)

Software: 3ds Max, V-Ray

Skills: Furniture Layout, Material Selection, Lighting Design, 3D Modeling, Rendering

Architectural Visualization – Palace, Rural House and Villa

Created exterior visualizations for three residential projects: a palace, a rural house, and a villa. Produced aerial and street-level views featuring daytime and dusk lighting, landscaping, and facade materials. [View Project](#)

Software: 3ds Max, D5 Render

Skills: Architectural Visualization, 3D Modeling, Lighting, Composition

Villa Interior Construction Documentation

Developed the interior design and construction documentation for a residence in Al-Tireh, Ramallah, combining two apartments into one unified home. Reconfigured the layout to meet client requirements and prepared furniture layouts, ceiling plans, elevations, sections, and cabinetry and joinery details for the kitchen, bathrooms, bedrooms, dressing room, and library. [View Project](#)

Skills: Space Planning, Residential Interior Design, Technical Drawings, Ceiling Plans, Cabinetry & Joinery Detailing, Client Requirements

Kitchen Design – Kitchen and Bath Design Course

Designed a residential kitchen with separate clean and dirty kitchen areas and a central island. Prepared countertop, lower-cabinet, and upper-cabinet plans, six elevations, two sections, and cabinet-fitting details. Produced renderings illustrating cabinetry finishes, a stone splashback, and integrated lighting. [View Project](#)

Skills: Kitchen Layout, Cabinet Design, Technical Drawings, Material Selection, Lighting Design

Architectural Plan Rendering & Presentation

Transformed technical floor plans into presentation drawings using Adobe Photoshop. Applied furniture, materials, textures, landscaping, and shadows to improve spatial readability while preserving the accuracy and original geometry of the architectural plans. [View Project](#)

Software: Adobe Photoshop

Skills: Architectural Plan Rendering, Graphic Composition, Material & Texture Representation, Spatial Visualization, Architectural Presentation

COURSES & CERTIFICATIONS

3ds Max Course

September 2024

Eng. Miqdad, Lecturer at An-Najah National University

- Covered 3D modeling, V-Ray rendering, lighting, materials, and texturing.
- Course project: interior kitchen design.
