

Tala Othman Shukri Faqi

Interior Designer & 3D Visualizer

Ramallah – Abu Qash, Palestine | 0599130617 | Tala.othman955@gmail.com

PROFESSIONAL SUMMARY

Interior Design graduate of Birzeit University (2026) who works across the design workflow, from concept, space planning and technical drawings to 3D modeling, materials, lighting and rendering. Portfolio covers residential interiors, kitchen design, a villa construction drawing set and exterior architectural visualization. Completed an internship developing villa interiors with 3D visualization. Works in AutoCAD and Revit, and in 3ds Max, V-Ray, D5 Render and Photoshop.

TECHNICAL SKILLS

Core Skills: Interior Design, Space Planning, Material Selection, Lighting Design, Technical Drawings, 3D Modeling, 3D Visualization, Architectural Rendering

3D & Visualization: 3ds Max, V-Ray, Corona Renderer, D5 Render

Design & Documentation: AutoCAD, Revit

Adobe Creative Tools: Photoshop, Illustrator

EDUCATION

Bachelor's Degree in Interior Design

Graduated 2026

Birzeit University

INTERNSHIP

Interior Design Intern – Pal Roots Engineering Office

2 months

Residential Villa Interior Design Project

- Developed the interior design of one floor of a residential villa, including a master bedroom with en-suite bathroom, a girl's bedroom, a boy's bedroom and a guest bathroom.
- Produced 3D visualizations of the interior spaces using 3ds Max.

SELECTED PROJECTS

Interior Visualization – Residential Interiors

2026

Personal Portfolio Project | Interior Design and 3D Visualization

Modeled and rendered seven residential interiors: living room, master bedroom, girl's bedroom, boy's bedroom, guest bathroom, master bathroom and kitchenette. Took each space from furniture layout and material selection through to lighting setup and final rendering, presented with overall and detail views.

Software: 3ds Max, V-Ray

Skills Demonstrated: Furniture Layout, Material Selection, Lighting Design, 3D Modeling, Rendering

Kitchen Design – Kitchen and Bath Design Course

2025

University Course Project (DSIN3120) | Residential Interior Design

Designed a residential kitchen with separate clean and dirty kitchen areas and a central island. Developed countertop, lower-cabinet and upper-cabinet plans, six elevations, two sections and detail drawings of cabinet fittings, and produced kitchen renderings showing cabinetry finishes, stone splashback and integrated lighting.

Skills Demonstrated: Kitchen Layout, Cabinet Design, Technical Drawings, Material Selection, Lighting

Villa Interior Construction Documentation

2025

University Course Project (DSIN3270) | Residential Interior Design, Technical Drawings

Produced an A3 drawing set at 1:50 for a residential villa in Al-Tireh, Ramallah: plans before and after partitioning, final furnished plan and ceiling plans. Detailed the kitchen (countertop, upper and lower cabinet plans, seven elevations, sections and island details), bathrooms, three bedrooms with wardrobe layouts, a dressing room and a library.

Skills Demonstrated: Space Planning, Technical Drawings, Ceiling Plans, Cabinet and Joinery Detailing, Residential Design

Architectural Visualization – Palace, Rural House and Villa

2026

Personal Portfolio Project | Exterior 3D Visualization

Created exterior visualizations of three residential projects, a palace, a rural house and a villa, with aerial and street-level views, daytime and dusk lighting, landscaping and facade materials.

Software: 3ds Max, D5 Render

Skills Demonstrated: Architectural Visualization, 3D Modeling, Lighting, Composition

Rendered Plans and Spa Design

2026

Personal Portfolio Project | Space Planning, Architectural Presentation

Prepared presentation-quality rendered plans: furnished residential floor plans with an isometric cutaway view, a residential site layout and a two-floor spa design based on a multisensory concept, with material and furniture presentation boards.

Software: Adobe Photoshop

Skills Demonstrated: Space Planning, Concept Development, Presentation Graphics, Digital Editing

COURSES & CERTIFICATIONS

3ds Max Course

September 2024

Eng. Miqdad, Lecturer at An-Najah National University

- Covered 3D modeling, V-Ray rendering, lighting, and materials and texturing.
- Course project: interior kitchen design.
